

2 Metre Aluminium LED Surface Profile 17 × 8mm, Opal Diffuser

Surface-mounted channel for LED strip up to 12mm

SPECIFICATION

Profile type	Surface mounted
Section	17 × 8mm · 12 × 6mm channel
Length	2 metres
LED strip size	Up to 12mm
Material	Anodised aluminium
Finish	Silver anodised
Diffuser	Push-in opal
IP rating	IP20 — dry indoor only
Mounting	Surface clips and screws
Form	Straight runs only
Weight	600g
Guarantee	7 years

IN THE BOX

- 1 × 2m profile
- 2 × end caps
- 1 × 2m opal diffuser
- 4 × mounting clips with screws

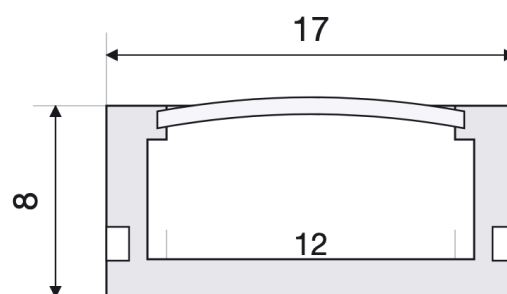

DESCRIPTION

A 2 metre surface channel in anodised aluminium, 17mm wide by 8mm high with a 12 × 6mm internal channel. It screws flat to any dry surface on the four supplied clips and takes LED strip up to 12mm wide under an opal diffuser.

Across a 4 metre run, 2 metre lengths give one join where 1 metre lengths give three, so the light line shows fewer breaks. The 8mm height keeps it low under cabinets, along shelving and behind pelmets.

Seat and test the strip before the cover clips on — sawing a diffuser while it is in the channel is how covers crack. IP20, dry indoor only, and the section is rigid: straight runs, no curves.

DIMENSIONS

Cross-section — all dimensions in millimetres
