Length	2 metres
LED strip size	Up to 26mm
Material	Anodised aluminium
Finish	Silver anodised
Diffuser	Opal
IP rating	IP20 — dry indoor only
Mounting	Recessed floor mounting — set flush into the finished surface
Weight	Not stated
Guarantee	7 years

IN THE BOX

- 1 × 2 metre silver recessed floor profile
- End caps
- Mounting clips and screws
- 1 × opal diffuser

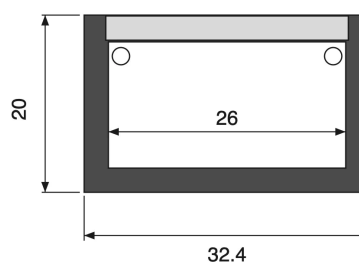

DESCRIPTION

This 2 metre recessed floor channel takes LED strip or neon flex up to 26mm wide in a 32.4 × 20mm aluminium section. It arrives with an opal cover for a flush finish at floor level.

Set it into paving, decking or a floor threshold so the cover finishes level with the walking surface. The wide internal channel suits neon flex and wide COB strip.

The profile is a mechanical housing, not a seal: it is IP20, so the strip or neon flex fitted inside must itself be IP67 or IP68 rated and terminated with its own rated caps and gland. Design a fall or drainage path into the recess, and confirm the substrate build-up and floor loading with your installer before the groove is cut.

DIMENSIONS

CN635 · Section 32.4 x 20mm · 26mm internal channel · fits neon flex up to 26mm

Cross-section — all dimensions in millimetres
