| Warranty       | 7 Years                  |

### IN THE BOX

- 1 × 2 metre black corner profile
- 1 × opal diffuser
- End caps
- Mounting clips and screws

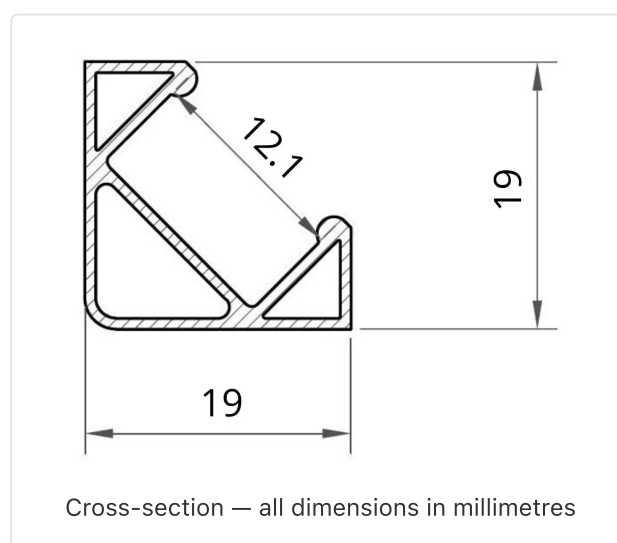

### DESCRIPTION

This 2 metre corner channel takes LED strip up to 12mm wide in a 19 × 19mm aluminium section. It arrives with an opal diffuser cover, end caps, mounting clips and screws.

Use it where the run is long, the strip is high output, or the corner detail needs more physical presence than the 16mm section gives. The larger section puts more aluminium around the strip to sink heat into over several metres, and stands up better to knocks at counter and kickboard level.

The external section grows to 19 × 19mm but the internal channel still takes strip up to 12mm — the larger outside does not buy a wider tape. The 45-degree mount is asymmetric by design, and IP20 rules out bathrooms and outdoor positions.
