1 metre: 1 screw set - 2 screws + 2 wall plugs.
2 metres: 2 screw sets - 4 screws + 4 wall plugs.

Profile illustration. Refer to the cross-section for dimensions.

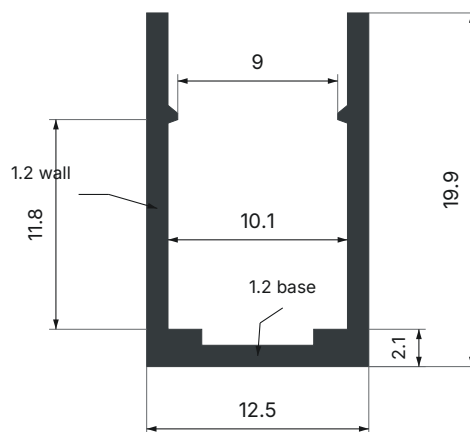

DESCRIPTION

A rigid aluminium channel for neat, aligned straight runs of compatible 10x20mm IP67 LED Neon Flex. Choose the 1 metre or 2 metre profile to suit your layout.

Check the actual Neon Flex fit before fixing. Align the channel on a suitable substrate and use appropriate fixings. Remove sharp cut edges and keep screw heads flush or recessed.

Seat the Neon Flex progressively without forcing it. IP67 describes the compatible Neon Flex, not the aluminium profile. Follow the light's installation, sealing and electrical requirements.

DIMENSIONS

Cross-section in mm. Not to scale.
Supplied drawing callouts; verify fit before installation.
