

2.45 Metre Straight Plaster-in Aluminium LED Profile 55.5 × 13mm

Trimless plaster-in channel for LED strip up to 12mm, straight runs.

SPECIFICATION

Profile type	Straight plaster-in channel
Section	55.5mm flange · 15.1 × 13mm body
Length	2.45 metres
LED strip size	Up to 12mm (12.5mm channel)
Material	Anodised aluminium
Finish	Silver anodised
Diffuser	Opal, supplied
IP rating	IP20 — dry indoor only
Mounting	Plaster-in, recessed
Form	Straight runs only
Weight	637g
Guarantee	7 years

IN THE BOX

- 1 × 2.45m profile
- 1 × front cap
- 1 × 2.45m opal diffuser
- 1 × end cap

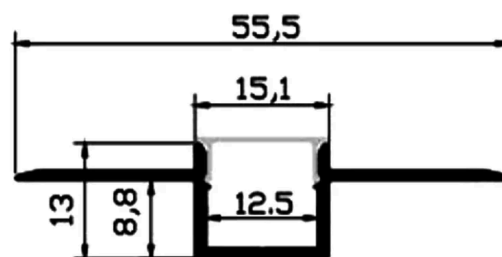

DESCRIPTION

A 2.45 metre plaster-in channel for LED strip up to 12mm wide, in a 55.5 × 13mm aluminium section with a 12.5mm channel 8.8mm deep. It is the longest length in the range, so a run of any size is reached with fewer joins.

Fix to the framing before boarding, cut the plasterboard to butt against the flange and skim over it. Butt lengths end to end for longer runs, lining the channel up before you skim so the join does not read in the light line.

Fit the opal cover after plastering and decorating, never before: wet plaster dries hard in the retaining lips and the cover will not seat. IP20 rules out bathrooms and outdoor positions.

DIMENSIONS

Cross-section — all dimensions in millimetres
