

2 Metre Straight Plaster-in Aluminium LED Profile

Trimless plaster-in channel for LED strip up to 15mm, straight runs.

SPECIFICATION

Profile type	Straight plaster-in channel
Section	60.3mm flange · 20 × 15mm body
Length	2 metres
LED strip size	Up to 15mm (15.4mm channel)
Material	Anodised aluminium
Finish	Silver anodised
Diffuser	Opal, supplied
IP rating	IP20 — dry indoor only
Mounting	Plaster-in, recessed
Form	Straight runs only
Weight	600g
Guarantee	7 years

IN THE BOX

- 1 × 2m plaster-in profile
- End caps
- 1 × opal diffuser
- Mounting clips and screws

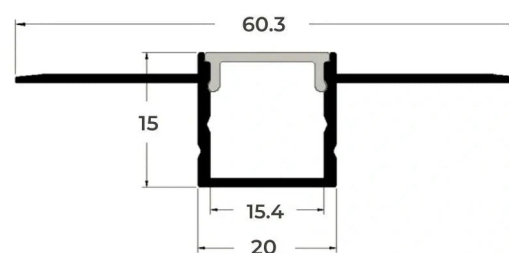

DESCRIPTION

This 2 metre plaster-in channel takes LED strip up to 15mm wide in a 60.3 × 15mm aluminium section. The wide flange is a plaster key, so the profile is skimmed into the ceiling or wall and finishes with no visible trim.

Fix it to the framing before boarding, cut the plasterboard to butt against the flange, and skim over it so the detail reads as a slot cut into the plaster. The section is rigid, so set the run out straight — it will not follow a curve.

Fit the diffuser after plastering and decorating, never before — plaster works into the retaining lips, dries hard, and the cover will then refuse to clip or sit evenly. IP20 rules out bathrooms and outdoor positions.

DIMENSIONS

Cross-section — all dimensions in millimetres
