DESCRIPTION

A black aluminium U-channel for neat, aligned straight runs of compatible ATOM LED 6x12mm IP67 Neon Flex. The dark finish suits cabinetry, shelving and architectural details.

Check the actual Neon Flex fit before fixing. Align the channel on a suitable substrate, remove sharp cut edges and keep fixing heads flush or recessed so they cannot press into the Neon Flex.

IP67 describes the compatible Neon Flex, not the aluminium profile. Maintain the correct sealing at every electrical connection and follow the Neon Flex installation guide.

DIMENSIONS

Cross-section in mm. Not to scale.
Straight 6x12mm profile dimensions; verify fit before installation.
