IP rating	See product page
Mounting	Recessed or surface
Form	Flexible — bends on site
Certification	CE & RoHS
Warranty	7 Years

IN THE BOX

- 1 × black silicone body
- Length as ordered
- Strip not included

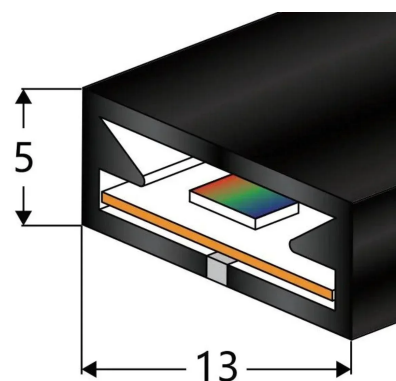

DESCRIPTION

A 13mm wide × 5mm high black silicone body for LED strip 8mm to 10mm wide. Tie a draw cord to the strip and pull it through — the black walls hide the PCB and the top face spreads the LEDs into one continuous line of light.

Set it into a routed groove or fix it to the surface with screw-down clips. The silicone bends on site to follow curves, corners and lettering; keep the bends gentle so the strip inside is never kinked.

No IP rating is stated on the product record, so keep it to dry indoor positions unless our technical team confirms otherwise. UV-stable silicone, sold by the metre from 1m to 50m.

DIMENSIONS

Cross-section — all dimensions in millimetres

If you require any advice for your project, feel free to get in touch — our technical team is here Monday to Friday, 9am–5pm on 01952 370028 or sales@atomled.co.uk.
