Finish	Black
Diffuser	Integral opal silicone top
IP rating	See product page
Mounting	Recessed or surface
Form	Flexible — bends on site
Weight	See product page
Warranty	7 Years

IN THE BOX

- 1 × silicone body

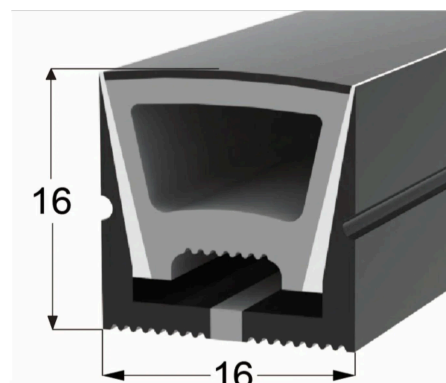

DESCRIPTION

A 16 × 16mm black silicone body with an opal top face, sized for LED strip up to 10mm wide. Pull the strip through the tube and the black side walls mask the PCB, so the opal face diffuses the LEDs into one continuous neon line.

Fit it recessed into a routed groove or surface-mounted, and cut it to length on site. The silicone flexes to follow curves, corners and lettering — keep bends gentle so the strip inside is never kinked.

No IP rating is stated on the product record, so keep it to dry indoor positions unless our technical team confirms otherwise. The body is UV-stable silicone.

DIMENSIONS

Cross-section — all dimensions in millimetres

If you require any advice for your project, feel free to get in touch — our technical team is here Monday to Friday, 9am–5pm on 01952 370028 or sales@atomled.co.uk.
