IP rating	See product page
Mounting	Recessed or surface
Form	Flexible — bends on site
Weight	See product page
Warranty	7 Years

IN THE BOX

- 1 × silicone tube
- Strip not included

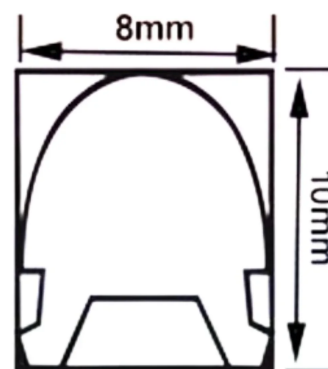

DESCRIPTION

This cool white silicone tube is an 8mm wide × 10mm deep diffuser body for LED strip up to 6mm wide. Feed a 6mm strip into the channel at the base and the white silicone spreads the diodes into one continuous neon-style line. The strip is sold separately — order it alongside.

It sits in a recessed channel or fixes on the surface, and because it is silicone it bends on site to follow letters, logos and curves for sign work. Keep bends gentle so the strip inside is not strained.

The listing carries no IP rating, so treat it as an indoor, dry-location diffuser. Available in 1 to 50 metre lengths.

DIMENSIONS

Cross-section — all dimensions in millimetres
