Mounting	Recessed or surface
Form	Flexible — bends on site
Weight	See product page
Warranty	7 Years

IN THE BOX

- 1 × ice blue tube
- Strip not included
- Length as ordered
- Driver not included

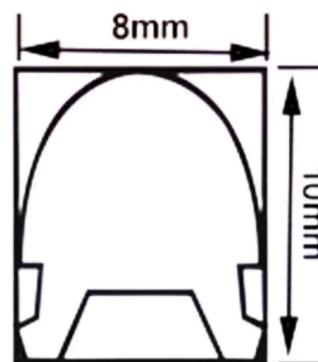

DESCRIPTION

An 8mm wide, 10mm deep silicone tube with an ice blue tinted top on a white base. The channel in the underside takes LED strip up to 6mm wide: press the strip in from below and the lips grip it, so the diodes read as one diffused, neon-style line of colour.

Fit it recessed into a routed slot or surface-mounted on the face. It is flexible and bends on site, so it follows lettering, stair edges and shelf lines. Order by the metre, from 1 to 50m.

LED strip is sold separately — this is the diffuser body only. No IP rating is stated for the tube, so plan it as an indoor, dry-location fitting and protect the strip ends and joints.

DIMENSIONS

Cross-section — all dimensions in millimetres
