IP rating	See product page
Mounting	Recessed or surface
Form	Flexible — bends on site
Weight	See product page
Warranty	7 Years

IN THE BOX

- 1 × silicone tube
- Strip not included

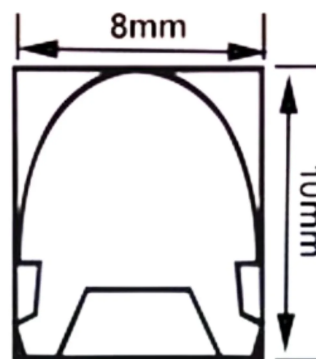

DESCRIPTION

This lemon yellow silicone tube is 8mm wide and 10mm deep, with a slot in the base that takes LED strip up to 6mm wide. Lit, the tinted body diffuses the strip into one continuous yellow line, which is why it is the usual choice for sign lettering and drawn lines of light.

Feed the strip in from one end, then fix the tube either recessed into a routed slot or surface-mounted. It is flexible and bends on site to follow curves and letter shapes. The LED strip is bought separately.

No IP rating is stated for this tube — see the product page — so plan it for dry indoor positions. Supplied cut to your ordered length, from 1 to 50 metres.

DIMENSIONS

Cross-section — all dimensions in millimetres
