

Natural White Silicone Neon Flex Tube Diffuser 8 × 10mm

Flexible natural white silicone body for 6mm LED strip, sold by the metre from 1 to 50m.

SPECIFICATION

Profile type	Silicone tube diffuser
Section	8mm wide × 10mm deep
Length	1 to 50 metres
LED strip size	Up to 6mm
Material	Silicone
Finish	Natural White
Diffuser	Integral opal silicone
IP rating	See product page
Mounting	Recessed or surface
Form	Flexible — bends on site
Weight	See product page
Warranty	7 Years

IN THE BOX

- 1 × silicone tube
- Strip not included

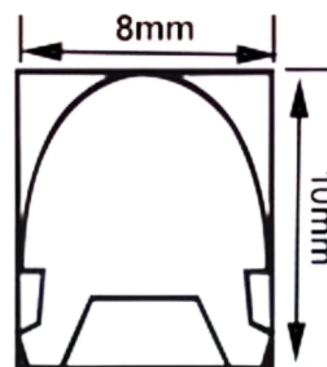

DESCRIPTION

An 8mm wide, 10mm deep natural white silicone tube that turns bare 6mm LED strip into a continuous neon-style line. The strip sits in the channel along the base and the domed body diffuses it, so you see one line of light rather than a row of LEDs.

Fit it recessed in a routed groove or straight onto the surface. It bends by hand on site, so lettering, logos and curved edges are all workable — lay and wire the 6mm DC strip first, then press the silicone over it.

No IP rating is published for the tube itself. The strip and driver you pair with it decide what the finished run can withstand, so specify those for the location.

DIMENSIONS

Cross-section — all dimensions in millimetres
