IP rating	See product page
Mounting	Recessed or surface
Form	Flexible — bends on site
Weight	See product page
Warranty	7 Years

IN THE BOX

- 1 × silicone tube
- Length as ordered

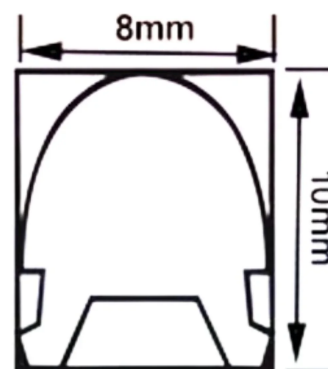

DESCRIPTION

This orange silicone tube is an 8mm wide × 10mm deep section that takes LED strip up to 6mm wide. The strip sits in the channel at the base and the domed orange body spreads the light into a continuous neon-style line.

Fit it recessed into a routed channel or mounted on the surface, then shape it on site — the silicone is soft enough to follow script lettering, outlines and shelf edges for signs and feature lines. The LED strip is bought separately.

No IP rating is listed for this tube, so plan it for dry indoor positions. Available from 1 to 50 metres; choose your LED strip colour to suit the orange body, which is what shows when the run is off.

DIMENSIONS

Cross-section — all dimensions in millimetres
