| Warranty       | 7 Years                           |

### IN THE BOX

- Pink silicone tube, length as ordered
- LED strip not included

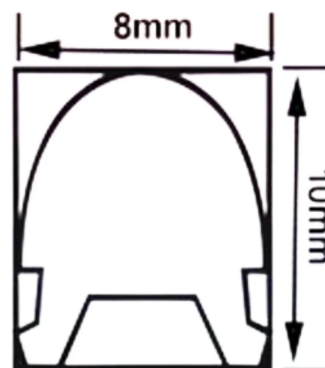

### DESCRIPTION

An 8mm wide, 10mm deep pink silicone tube with a channel in the underside for LED strip up to 6mm wide. The colour is in the silicone itself, so a plain white strip reads as a pink neon line once it is lit.

Sold per metre from 1m to 50m. Fix it to the surface or recess it into a routed slot — sign letters are usually cut into an acrylic backing, the bare strip laid first and the tube pressed in over it. The silicone bends freely on site to follow the letterforms.

No IP rating is stated for this tube, so keep it to indoor work; the strip you fit inside sets any wet-area rating, not the cover.

### DIMENSIONS

Cross-section — all dimensions in millimetres
