Mounting	Recessed or surface
Form	Flexible — bends on site
Weight	See product page
Warranty	7 Years

IN THE BOX

- Red silicone tube
- Strip not included
- Length as ordered
- Driver not included

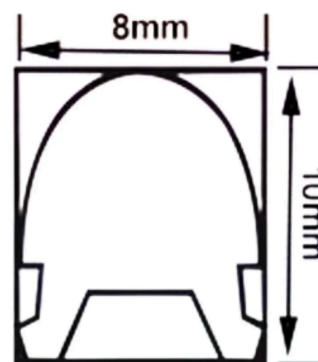

DESCRIPTION

An 8mm wide × 10mm deep red silicone tube for neon-style signs and lines of light. LED strip up to 6mm wide sits in the channel at the base and the red dome above turns the separate LEDs into one continuous coloured line.

Rout an 8mm slot in an acrylic backboard and press the tube in, or surface-mount it. The silicone bends on site to follow lettering and curves — lay the strip along the shape first, then push the tube over it. Sold per metre; strip and driver are separate.

No IP rating is published for this tube, so keep it to dry indoor positions.

DIMENSIONS

Cross-section — all dimensions in millimetres
