

Flexible Silicone Neon LED Strip Cover 15 × 10mm

Bendable silicone channel for LED strip up to 10mm, surface or recessed, ordered per metre from 1m to 50m.

SPECIFICATION

Profile type	Flexible silicone cover
Section	15 × 10mm body · 20mm flange
Length	1–50 metres, sold per metre
LED strip size	Up to 10mm
Material	UV-stable silicone
Finish	Opal — clear/white silicone
Diffuser	Integral opal top, 120° beam
IP rating	See product page
Mounting	Surface or recessed; glue or snap-fit
Form	Flexible — bends on site
Weight	See product page
Warranty	7 Years

IN THE BOX

- 1 × silicone cover
- Strip not included

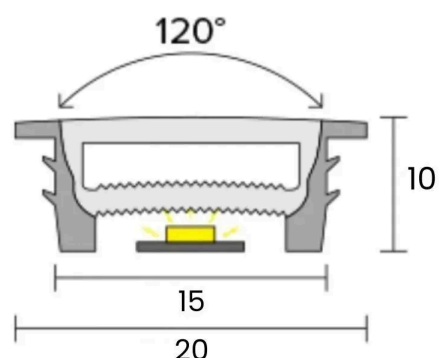

DESCRIPTION

This flexible silicone cover takes LED strip up to 10mm wide in a 15 × 10mm body with a 20mm top flange. Reserve a 15mm groove, stick the strip into the slot and press the cover in — the barbed sides grip the groove, with a bead of adhesive where the run is vertical or overhead.

The opal top spreads the light to 120° for a diffused, neon-style line. The UV-stable silicone bends on site around curves and corners and cuts with a knife, so order by the metre from 1m to 50m and trim on the job.

Suits surface or recessed fixing along corridors, stair edges, shelving and feature lines. No IP rating is published for this cover, so keep it to dry interior positions.

DIMENSIONS

Cross-section — all dimensions in millimetres
