Diffuser	Integral opal silicone
IP rating	See product page
Mounting	Surface or recessed
Form	Flexible — top or side bend
Weight	See product page
Warranty	7 Years

IN THE BOX

- 1 × silicone cover
- Ordered length

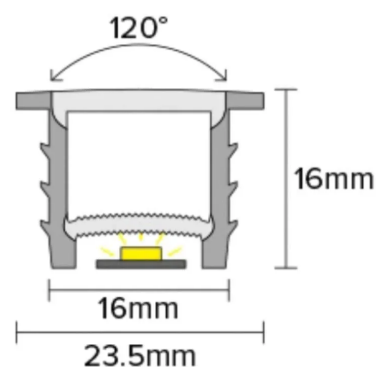

DESCRIPTION

A 16 × 16mm flexible silicone cover with a 23.5mm top flange, taking 12V or 24V LED strip up to 10mm wide. Rout a 16mm slot and press the body in so the flange sits on the face, or fix it straight to a surface.

Feed the strip through from one end, then bend the run to follow curves, corners or stair strings — it bends top or side, and the opal body turns the LEDs into one dot-free line of light. Cut it to length with a sharp blade.

Check the product page for the current IP rating before fitting it in a bathroom or anywhere it will get wet.

DIMENSIONS

Cross-section — all dimensions in millimetres
