Diffuser	Integral opal silicone
IP rating	See product page
Mounting	Surface or recessed
Form	Flexible — bends on site
Weight	See product page
Warranty	7 Years

IN THE BOX

- 1 × silicone cover
- Length as ordered

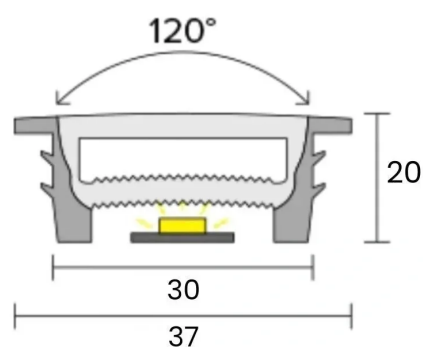

DESCRIPTION

This 30 × 20mm silicone cover takes LED strip up to 15mm wide and diffuses it into a neon-style line of light. The 37mm top lip lets you rout a 30mm slot and sink the body flush with the surface, or run it surface-mounted where cutting a slot is not practical.

Stick the strip to the channel floor, push the cover over it and glue or snap the run into its groove. The silicone bends around curves and corners on site and cuts cleanly with a sharp blade, so it suits stair strings, coving, shelf edges and outline signage.

Order from 1 to 50 metres. No IP rating is stated on the listing, so confirm it on the product page before fitting anywhere wet.

DIMENSIONS

Cross-section — all dimensions in millimetres
